

IMDG INTERNATIONAL WATER TRANSPORT OF RADIOACTIVE MATERIALS

Course Duration: 16 hours | Retrain Frequency: 3 years

PREREQUISITES

DOT/NRC radioactive waste packaging, transportation and disposal training equivalencies must be approved by EnergySolutions.

AVAILABLE FORMATS

Classroom

COURSE DESCRIPTION

This course is for those that ship Class 7 radioactive material internationally by vessel. The International Maritime Dangerous Goods Code and the additional requirements in 49 CFR are reinforced with practical application, industry events, shipping scenarios, and lively discussion. Basic shipper functions are also reviewed and interwoven throughout this workshop. This class is for attendees with knowledge of the domestic regulations for radioactive materials. AAHP has awarded sixteen (16) CEUs for this class. Materials will be provided to facilitate completing the course.

Successful participants receive a certification stating that the training meets the requirements of 49 CFR 172, Subpart H.

WHO SHOULD ATTEND?

Employees required to certify that vessel shipments of radioactive materials are in compliance with DOT's 49 CFR Regulations and the IMDG Code for international water transport.
