

IATA AIR TRANSPORT OF RADIOACTIVE MATERIALS

Course Duration: **8 hours** | Retrain Frequency: **2 years**

PREREQUISITES

DOT/NRC radioactive waste packaging, transportation and disposal training equivalencies must be approved by EnergySolutions.

AVAILABLE FORMATS

Classroom

Online

COURSE DESCRIPTION

This course is directed solely towards the transportation requirements for the shipping of radioactive materials by the International Air Transport Association (IATA) Dangerous Goods Regulations (DGR). The presentation assumes knowledge of domestic regulations for radioactive materials and concentrates on the differences. AAHP has awarded eight (8) CEUs for this class. Materials will be provided to facilitate completing the course.

Successful participants receive a certification stating that the training meets the requirements of 49 CFR 172, Subpart H and IATA, Section 1.5.

WHO SHOULD ATTEND?

Employees required to certify that shipments of radioactive materials are in compliance with DOT's 49CFR and the IATA Dangerous Goods Regulations for domestic air and international transport.

ADDITIONAL TRAINING MATERIALS

You will need a current copy of the IATA Dangerous Goods Regulations to complete the online course. We have these available for purchase.

COURSE TOPICS

- Classification
- Proper Shipping Names
- Packaging
- Radiation Contamination Limits
- Marking & Labeling
- Documentation
- Variations
- Limitations
- Shipping Exercises
- Examination
